

## Funeral Cover

Funeral Cover isn't a topic we want to talk about, or deal with. But the fact is, it could become a necessity. The loss of a loved one can bring certain costs that may become overwhelming to deal with, especially at such a time. Our Funeral Cover takes this complication away, so you can focus on matters and people that are more important.

### Benefits

- Repatriation services - If you pass away, your next of kin can decide on the place of burial and the funeral home, provided that both the death and burial occur within South Africa.
- Additional policies may be included in this cover for your parents, parents-in-law, and domestic employees.

Add Funeral Cover today.
